EDUCATION

Graphic Era University

B.Tech in Computer Science and Engineering, **CGPA - 8.88**

Dehradun, Uttarakhand

August 2023 - June 2027

Vidya Global School

12th, CBSE - 95%

Meerut, UP

2023

Vidya Global School

10th, CBSE - 94.3%

Meerut, UP

2021

EXPERIENCE

iOS Developer Intern: Infosys Ltd., Mysuru

June 2026 – July 2026

- Contributed to a Fleet Management System by implementing vehicle management, maintenance, and role-based workflow features.
- Analyzed SRS requirements and developed, tested, debugged, and refined application modules using Agile methodologies.
- Collaborated with the team using Git, Jira, and Xcode for feature development, debugging, documentation, testing, and version control.

iOS Student Developer Program: Apple x Infosys

August 2025 – June 2026

- Selected from over 2,000 applicants for the one-year Apple × Infosys iOS Development Student Program .
- Collaborated in a four-member team to design and develop Talkables, following the software development lifecycle from requirements and prototyping to testing and iteration.
- Applied Swift, SwiftUI, Git, UI/UX principles, sprint planning, and collaborative development practices to build scalable, user-centric iOS applications.

PROJECTS

MolecuLens – Apple Swift Student Challenge 2026 [Project Link](#)

- Developed an AR-powered educational iOS application that transforms chemical formulas into interactive 3D molecular models using Apple's native frameworks.
- Built a custom molecular generation engine capable of dynamically constructing and rendering molecules in real time with offline support and intuitive gesture-based interactions.
- Technologies: **Swift, SwiftUI, ARKit, RealityKit, SceneKit, Vision, Speech Framework.**

JARVIS AI : AI Assistant powered with ChatGPT API Key [Project Link](#)

- Built a Python-based AI voice assistant integrating the OpenAI API, speech recognition, and text-to-speech for conversational task automation.
- Integrated GPT-based response generation and modular command processing to handle user requests and automate common tasks.
- Technologies: **Python, PyAudio, Speech Recognition, NLP, ChatGPT API Key**

Real-Time Data Streaming with Apache Kafka [Project Link](#)

- Developed a real-time Apache Kafka event streaming system, simulating 1,000+ food delivery events/second with rider locations and order updates.
- Implemented multiple consumer groups for scalable, independent processing, achieving 99.9% reliable message delivery and 50% higher throughput.
- Technologies: **Apache Kafka, KafkaJS, Zookeeper, Docker, Terminal**

TECHNICAL SKILLS

- Programming Languages:** C/C++, Java, Python, HTML, CSS, JavaScript, iOS/Swift.
- Databases:** MySQL (Relational Database), Redis (NoSql), SQL.
- AI & GenAI:** OpenAI API, NLP, Generative AI, AI-powered Automation.
- Engineering Practices:** Agile, SDLC, Software Testing, Debugging, Code Review, Technical Documentation.
- Backend & APIs :** REST APIs, FastAPI, Backend Development, API Integration, Microservices.
- CS Fundamentals:** DBMS, OOPs, Data structures and Algorithms, System Design Basics, Problem Solving, Computer Networks
- Tools & Technologies:** Git, GitHub, Docker, Apache Kafka, Linux, AWS.

ACHIEVEMENTS

- Top 15 Teams** among 60+ teams in Eternal's iOS swiftDidLoad Hackathon at Zomato's Office.
